

I CLAIM:

1 1. The combination comprising:
2 a housing having an open top and an outlet port in a
3 bottom opposite thereof;
4 a brush coupled with, and spanning across, said
5 housing; and
6 a vacuum hose detachably securable with said outlet
7 port.

1 2. The combination of Claim 1 wherein said housing is of a
2 lateral surface area greater at said open top than at said
3 ported bottom.

1 3. The combination of Claim 2 wherein said housing is of a
2 depth sloping downwardly from said open top to said ported
3 bottom of gradually decreasing angle.

1 4. The combination chair of Claim 3 wherein said housing
2 is of a rectangular cross-section at said open top.

1 5. The combination of Claim 3 wherein said outlet port is
2 substantially centered beneath said open top.

1 6. The combination of Claim 3 wherein said outlet port is
2 offset to one side beneath said open top.

1 7. The combination of Claim 3 wherein said brush spanning
2 across said housing is of a length greater than the width of a
3 ceiling fan blade.

1 8. The combination of Claim 7 wherein said brush spanning
2 across said housing is of a length at least 4 inches.

1 9. The combination of Claim 7 wherein said brush spanning
2 across said housing is of a length between 4 and 12 inches.

1 10. The combination of Claim 2 wherein a portion of said
2 brush extends downwardly within said housing.

1 11. The combination of Claim 10 wherein said brush includes
2 first and second rows of bristles separated by at least the
3 thickness of a ceiling fan blade.

1 12. The combination of Claim 11 wherein individual bristles
2 of each of said first and second separated rows are spaced apart
3 one from another.

1 13. The combination of Claim 1 wherein said vacuum hose is
2 securable with said outlet port by an encirclement therewith.

1 14. The combination of Claim 13 wherein said vacuum hose is
2 securable with said outlet port by a snug fit therebetween.
